ACADEMIC PROJECTS

Govt Mahila Engineering College, Ajmer 2024 - 2025

College Attendance with QR code system

- Design and implemented a QR-code-based attendance management system using Python (Flask/Django) and MySQL.
- Each student was assigned a unique QR code generated via qrcode library, which was scanned through a mobile/web interface.
- Attendance data was stored in a relational database with timestamp logs, enabling real-time reporting and reducing manual tracking errors.
