VARSHA BHATI

CYBERSECURITY | PENETRATION TESTING | SOC ANALYSIS

Ajmer, Rajasthan | +91 8209318131 | varshabhati6338@gmail.com
linkedin.com/in/varsha-bhati-51142a29b | github.com/Varsha-123-abc

PROFESSIONAL SUMMARY

B.Tech Information Technology student focused on cybersecurity, penetration testing, SOC analysis, network security, and security automation. Hands-on experience through penetration-testing and technical-support roles, supported by practical security projects using Python, machine learning, Flask, SQLite, Docker, automated testing, and CI. Seeking entry-level cybersecurity, penetration testing, SOC analyst, or vulnerability-assessment opportunities.

CORE TECHNICAL SKILLS

Cybersecurity: Penetration Testing, VAPT, Vulnerability Assessment, Network Security, Intrusion Detection, Ethical Hacking, Web Application Security Testing, OWASP Top 10

Security Tools: Nmap, Wireshark, Burp Suite, Metasploit Framework, OWASP ZAP, SQLMap, Kali Linux

Programming / ML: Python, Flask, Scikit-learn, Random Forest, SQLite, SQL

DevOps / Testing: Docker, Pytest, GitHub, GitHub Actions, CI/CD

Operating Systems: Linux, Windows

PROFESSIONAL EXPERIENCE

Penetration Testing Intern | EUONUS IT PRIVATE LIMITED, Jaipur **May 2026 - Aug 2026**

Internship | *On-site*

- Completed a hands-on internship in penetration testing with practical exposure to security assessment processes and cybersecurity activities.
- Completed assigned project work within stipulated timelines while strengthening analytical problem-solving and professional cybersecurity workflows.

Technical Support Specialist | AVENGING SECURITY PRIVATE LIMITED, Jaipur **Nov 2025 - Mar 2026**

Full-time | *On-site*

- Provided technical support by troubleshooting system, software, and connectivity issues and assisting users with technical problems.
- Performed basic diagnostics and supported reliable day-to-day system operations, strengthening troubleshooting, networking fundamentals, and technical communication.

Penetration Testing Intern | PEDESTAL TECHNO WORLD **Dec 2024 - Jun 2025**

- Practiced vulnerability identification and penetration testing, including work on the Lovexa.ai project.
- Worked with Nmap, Metasploit, Burp Suite, Wireshark, OWASP ZAP, SQLMap, and Kali Linux.

SELECTED CYBERSECURITY PROJECTS

AI-Powered Intrusion Detection System | Machine Learning / Cybersecurity **2026**

- Built a two-stage Random Forest intrusion detection system to detect malicious traffic and classify DoS, Probe, R2L, and U2R attack categories.
- Developed a SOC-style Flask dashboard showing prediction, confidence, attack probability, risk level, detection stage, and attack status.
- Implemented persistent SQLite detection history plus CSV/PDF reporting, Docker deployment, Pytest testing, and GitHub Actions CI.

AI-Powered Vulnerability Scanner | Python / Cybersecurity **2026**

- Developed an AI-assisted vulnerability scanner using Python, Nmap, and ML-based risk classification.
- Implemented Critical-to-Low risk assessment, service-specific remediation recommendations, Metasploit module mapping, scan history, and PDF reporting.
- Integrated SQLite persistence, Docker containerization, and GitHub Actions CI/CD for automated testing and builds.

EDUCATION

Bachelor of Technology - Information Technology
Govt. Mahila Engineering College, Ajmer | Sep 2023 - Jun 2027 (Pursuing)

Class XII - 63%
Gurukul Public School, Alwar | 2022 - 2023

CERTIFICATIONS

- Certified Penetration Testing (CPT) - Pedestal Techno World | Issued Jun 2025
- Web Pentesting Mastery - Hack - DevTown | Aug 2026
